

HOW TO USE A ROUNDABOUT

Fairway Farms' roundabouts have **yield signs**

at all entrances to the intersection,

reminding drivers that they must **yield to traffic that is already on the roundabout.**

Yield signs may be supplemented with yield-line pavement markings.

Note: even if you do not see a YIELD sign, you still need to

yield to pedestrians and traffic already on the roundabout.

NO traffic entering the street entrance to the roundabout has the RIGHT OF WAY.

ALL streets entering the roundabout YIELD to traffic or pedestrians already on the roundabout.

Honking your horn doesn't change the fact that you must YIELD if traffic or pedestrians are already on the roundabout.
